Background:

Pastor Peter has planted and oversees 13 churches in rural, western Kenya. He hosted a small conference in November in which Steve Brandt taught several churches their identity in Christ and how to heal the sick. They were blown away and they want more. Pastor Peter has good relationships with other church leaders in the region (beyond the 13 churches). Four times a year they have major leadership conferences. August is their one of their big conferences. He wants Andy to train the church leaders in his region. Andy wants to bring a team. The whole team will play a major role in the training.
